Long Battery Life

Lightweight

3.75G WWAN

1.3 Megapixel Camera

Bluetooth

- Intel® Centrino® 2 Processor technology
- Drop Protection up to 45cm
- Excellent Water Resistance
- Up to 12 Hours of Battery Life
- Embedded Fingerprint and TPM Security Functions
- 802.11 a/g/n WLAN and Bluetooth
- Magnesium Alloy Chassis
- Shock-protected HDD
- 13.3" WXGA TFT LCD with LED Backlight
- 1.3 Megapixel CMOS Camera
- 2 Digital Mic Array

The Getac 9213 business rugged notebook is designed to survive all types of travel-related mishandlings. To prevent damage from accidents, the 9213 passed the 45cm drop test, the keyboard and button water resistant test, and the 120 kgf stress test. As a business notebook powered by the latest ultra low voltage Intel® Core™2 Duo Processor based on 45nm technology, this 1.7 kg unit is relatively lightweight and possesses outstanding battery life. When it comes to data security, the 9213 provides a combined advanced solution of a TPM security module, a fingerprint scanner, and a shock-protected HDD. The excellent multiple communication functions are travelers' favorite, and the 9213 combines Intel a/g/n WLAN, Bluetooth 2.1 with an optional 3.75G HSUPA module. Furthermore, several handy features like an 1.3 megapixel webcam as well as 2 digital mic arrays are also built into the unit.

IO Ports

Back Side

- Battery pack x 1

Left Side

- External VGA x 1
- USB 2.0 x 2
- Port replicator connector x 1
- LAN (RJ45) x 1
- Kensington lock x 1
- Audio output x 1
- Microphone x 1
- S/PDIF output x 1

Right Side

- ExpressCard x 1
- USB2.0 x 1
- DC in Jack x 1
- DVD super multi drive x 1

Industry Applications

Meeting and Conference

Featuring a professional and eye-catching black casing, 9213 comes with a 13.3" widescreen TFT LCD in an ultra slim design that weighs a mere 1.7kg, making it the best tool for sales representatives who have to visit clients or go on official trips. Fully equipped with a 1.3 megapixel CMOS camera, 802.11 a/g/n wireless network capabilities and Bluetooth 2.1, users will be able to handle data transfer and remote video conferencing without breaking a sweat.

Business Trip

In order to cater to the needs of professionals such as journalists and writers who are often on standby around the clock, 9213 is equipped with a powerful battery pack that lasts up to 12 hours so that users can record all events that are worth noting at anytime. The built-in fingerprint identification and TPM allow rapid and secure startup for the notebook and users can encrypt files and data easily on the hard disk to enjoy fortified data security.

Professional Service

Getac 9213 is housed in a sturdily constructed magnesium alloy chassis with streamlined body contours that make a fashion statement for professionals. Having passed the strict 45cm drop test and 120kg stress test, this incredibly durable notebook is equipped with a shock-protected hard disk so that you will no longer have to worry about damage to the notebook or data due to accidental drops, bumps and falls.

Optional Accessories

Port replicator

- USB x 3
- DVI-D x 1
- LAN (RJ45) x 1
- DC in Jack x 1
- Headphone out x 1
- Microphone x 1

Second battery
(27WH)

Weight saver

Rugged Features

Drop test

Business users who travel frequently often lose data when they accidentally drop their notebook. Having passed the 45cm drop test, the 9213 is capable of maintaining normal operations even if it has been accidentally dropped during use, making it a business rugged notebook of extremely high mobility and security.

Humidity test

- MIL-STD-810G- 507.5; Humidity, Procedure II, Aggravated compliance testing

Having gone through harsh and rigorous body design experiments and humidity tests, the 9213 is capable of operating for an extended period of time in humid environments. With the 9213, you can indulge yourself in your dream vacation at the beach or poolside and share your experience with friends regardless of where you are.

Vibration test

- MIL-STD-810G- 514.6; Vibration, Procedure I, compliance testing

The 9213's high portability is proven by passing a vibration test and it is capable of working without a hitch in an unstable environment. Business travelers can use 9213 on a plane or in a car without damaging their system due to vibration. With the 9213, you will always be able to manage your work progress at any time to secure the winning edge.

** Battery life testing conducted under BatteryMark 4.0.1. Battery performance will vary upon software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. The battery has a limited number of charge cycles and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.
